

Day 2 Flint Water Crisis Questionnaire

Directions: As you analyze the summary, answer the following questions.

1) In 2011, when Flint was cash-strapped and dealing with a 25-million-dollar deficit, what did the city decide to do?

2) What were some of the problems that Flint residents noticed with their water?

3) Did the federal government and the EPA react to the citizens concerns? What should they have done?

4) Was lead the only problem with the water that Flint dealt with? Explain.

5) What did a federal judge decide that Flint residents should have delivered to them door-to-door? Did this fix the problem or act as a short-term “band-aid” to the issue? Explain.

6) What is the status of the Flint Water Crisis right now?
